Skills

Languages: JavaScript, TypeScript, HTML5, CSS, Dart, C++, SQL

Frontend: React, Next.js, Gatsby, Flutter, Tailwind CSS, Shadcn, RadixUI, Storybook, Micro-frontend

Backend & Cloud: Node.js, Express.js, Microservices, GraphQL, MongoDB, PostgreSQL, DynamoDB, Firebase, Docker, AWS, Lambda, S3, SQS, SNS, Cognito

Technologies & Tools: Claude Code, Bloomreach, Blueshift, Google Analytics, BlueTriangle, New Relic, Git, Cypress, FullStory, Optimizely, Jira, Xcode, Figma, OneTrust, Cloudinary, Voucherify

Work Experience

Tech SMC Squared, Bangalore

Jun 2023 - Present

Software Engineer

- Contributed to a scalable micro-frontend architecture using Next.js and Module Federation, integrating Bloomreach CMS for personalized content delivery.
- Implemented transactional and marketing push notifications using Blueshift within a Flutter WebView app, driving higher user engagement and retention.
- Built the mobile engagement foundation behind a mobile app that reached **1.2M downloads** and grew app purchase-revenue share **~10x YoY** to over **10%** of total purchases in 2025.
- Drove Core Web Vitals optimization to **"Good" CrUX** ratings for loading and visual stability across mobile and desktop on the site's highest-traffic pages, with continuous monitoring via BlueTriangle.
- Delivered Google and Facebook OAuth authentication; the Google SSO segment alone delivers **7.6x higher revenue per user (ARPU)** than non-SSO logged-in users.
- Built a chatbot interface integrating an NLP-powered API from the data science team, enabling real-time conversational support.
- Built a customer loyalty points program using Voucherify, powering automated reward-tracking emails through an AWS Lambda + SQS pipeline integrated with Blueshift.

Upskillist, Bangalore

Dec 2020 - Jun 2023

Software Engineer

- Built an admin-only video upload feature using AWS S3 for the B2B platform, enabling client administrators to create custom course content for their teams.
- Created interactive data visualizations using Chart.js, giving stakeholders clearer visibility into platform usage and performance trends.
- Developed a custom admin dashboard to streamline support workflows, reducing manual effort for the support team.
- Implemented login and sign-up flows using AWS Cognito, enabling secure authentication.
- Built a real-time leaderboard using Firebase, boosting user engagement through gamification.
- Added a certificate download feature, converting HTML templates to PDF for easy sharing and record-keeping.

Education

NMAM Institute of Technology, Nitte
Bachelor of Engineering

Jun 2015 - Jun 2019
8.2 CGPA

Excellent PU College, Moodbidri
Pre University

May 2013 - May 2015
92.33%

Courses / Certificates

- Fundamentals of Networking Engineering (2025):** Learned TCP/IP, UDP, DNS and TLS protocols, focusing on backend performance and security.
- Complete Intro to Linux and the Command-Line (2025):** Learned Linux fundamentals – files, permissions, processes, networking, package management, and shell scripting for system administration.
- Microservices with Node JS and React (2025):** Designed and deployed scalable microservices with Docker, built web apps with React and Express, and wrote production-grade, well-tested code.
- Claude Code – The Complete Guide (2026):** Learned to build programs efficiently with Claude Code, covering sub-agents, skills, context engineering, MCPs, hooks, and plugins.

Awards

Tech SMC Squared

- 2x** Quarterly GRIT Award
- 2x** Quarterly SPOT Award
- 1x** Monthly SPOT Award
